

helmet-com® unit

bone conduction
microphone

The new SAVOX® HC is a compact and light weight helmet-com unit for professionals working in extreme and hazardous conditions. The SAVOX® HC provides instant, clear and reliable "hands-free" communication, increasing personal safety and work efficiency, allowing full concentration on the actual task.

Thanks to the unique arm/strap fastening system the SAVOX® HC-1 easily mounts in almost any type of helmet without any tools. The convenient bone conduction microphone is voice sensitive and makes a perfect combination with a breathing mask. The SAVOX® HC is the ideal communication solution for fire and rescue, special task operations - simply whenever using a helmet.

The intrinsically safe SAVOX® HC connects to most SAVOX® com-control/PTT units adapting to most types of two-way radios.
